Hey all!

Thanks for the briefing information. I coincidentally talked with Steve Mason just prior to the pre-brief. He reminded me to add EPA "& USCG" personnel and pre-empted false rumors that the evacuation zone had been increased. It went very well! I used a slightly condensed version of what you gave me at the Pre-brief. Following the Pre-brief, FEMA told what of it they wanted briefed out during the VTC. It was short and to the point and Steve didn't have any jokes about pronunciation at my expense! I was asked about the evacuation zone and was able to correct the record...

It worked well. Much thanks Bill
